hyper-mart section (skip this section if you are only applying for regular box hayvend and/or sweetime) This section deals with the commissioning of digital art work by Hayvend with the support of the Arts Council of England.

The aim of hyper-mart is to promote the new "digital art" and distribute it in the old and much over looked media of the floppy disc. This project will run in much the same way as original Hayvend in the boxes except that artists will be commissioned < through the arts council > and work will be reproduced by Hayvend rather than the artist making a series or editioned multiple. The commission is limited, we will have £2500 to divide by about 15 artists. Artists will be accepted upon merit and originality of work. 15 artists will be commissioned in this first round, but more may be accepted into the project and commissioned at a later date.

The sooner you return work for submission the better it's chances of making the first round, we will however be commissioning again once the project is up and running [provided it is a success] so if you don't get in first time it isn't to late...late candidates will be held over for future consideration.

I THE ARTIST < as named & signed over leaf > undertake the following:-
undertake to produce an original work of art for reproduction in floppy disc format. This work will be no larger than 1.4Mb and for PC or cross platform [no Mac only]. that I will not reproduce, copy or distribute the agreed work in another < ie as a down load on your own web site > format or the same format. This work will be produced exclusively for Hayvends Hyper-mart project

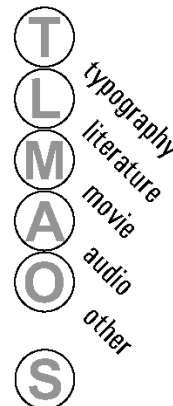

HAYVEND undertakes to pay a commissioning fee of £150. This fee will be payed on receipt of a satisfactorily finished master copy of the artwork. Above fee will be payed two months after the initial launch of "Hyper-mart" work will be judged and selected upto this time.

Hayvend will copy artists master disc upto 1000 times and produce a 1000 edition compilation cdrom < cdrom will only be produced if Hyper-mart project is successful, all contributing artists will receive copies >

This agreement shall be governed by [English] law and both parties agree to submit to the non-exclusive jurisdiction of the [English] courts.

This agreement is personal as between the parties and may not be transferred by ether party without the prior written consent of the other.

Sample of my work (work **must** be no bigger than 1.4Mb and pc formatted to fit floppy disc)
